

Hydraulic Movers

Our pair of hydraulic movers are an ideal accessory to lift and transport bulky and heavy equipment. Ideal for maintenance & assembly applications, switch cupboards, safes, containers and machinery.

Used as a pair of transport units with built in tension securing straps (5m)
Heavy duty non- marking polyurethane wheels with ball bearings.
Steering handles
Support rails with protective covering

With these hydraulic movers the load is easily transported and exactly positioned.

Position lifting plates underneath item to be moved. Tension securing straps. Lift item on both sides to equal height and move...Its as easy as that!

Model	Capacity (kg)	Lifting Height (mm)	Lifting Plate Size (mm)	Overall Dimensions (mm)	Weight (kg)	Price (£)
FM-180B	1800	250	600 x 60	680 x 420 x 1070	86	525.00

Lifting Capacity of 1800 kg
